

TECHNICAL DATA SHEET

i-FIN AL ETCH FUME SUPPRESSANT

i-Fin Al Etch Fume Suppressant is used in alkaline bath. It creates a compact foam layer on the alkaline bath at the time of etching aluminium parts.

It works long term in alkaline pickling bath. i-Fin Al Etch Fume Suppressant does not have any complexing agents. There is no need to used antifoaming agents. The formation of a foam layer on bath surface regulates gaseous emission and thereby improves working atmosphere.

OPERATING CONDITIONS

	Unit	Range	Optimum
i-Fin Al Etch Fume Suppressant	ml/ltr	0.5 - 1.0	0.8
pH	-	3-4	3.5
